

LR302

HD 30M-Range IR Fixed Dome IP Camera

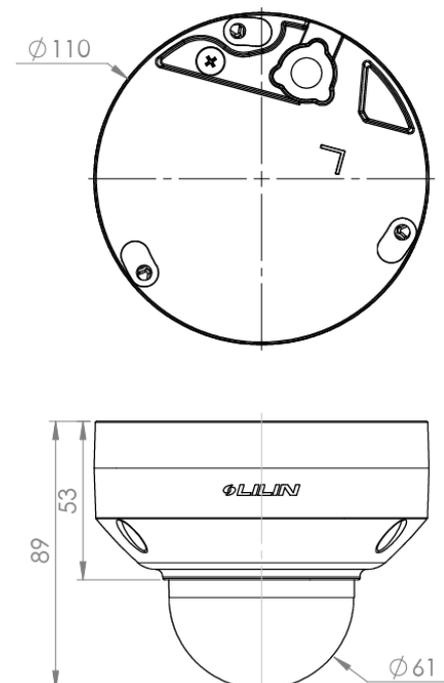

- ▶ IR cut filter for day/night operations
- ▶ 30-meter infrared night vision
- ▶ 1080p resolution @ 15 FPS

Dimensions (unit in mm):

Ø110mm x 89mm

LR302 HD 30M-Range IR Fixed Dome IP Camera in the L series features 1080p resolution at 15 frames per second, built-in Sense up+ technology to deliver stunning video in low-light conditions, and intelligent video surveillance (IVS) functions. Utilizing intelligent image signal processing, HDR, AGC control, and 3D Noise Reduction, the combination successfully delivers the ultimate low-light image without motion blur. The support of PoE, privacy mask, and white balance, as well as the minimum illumination of 0.15 Lux at F2.0 will satisfy multiple applications.

Back Light Compensation

Back Light Compensation (BLC) adjusts the exposure of the entire image to properly expose the subject of interest. Whether the subject is moving toward left, right, up, down, or any direction on the screen, BLC will provide the perfect exposure for the subject in front of a strong back light.

3D Noise Reduction

This function removes noise occurred in a video. Suppressing noise in low light conditions will retain details in a video and optimize the quality.

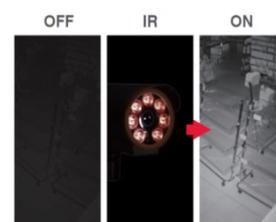

Sense Up+

Sense up+ is able to deliver outstanding video outputs in poor light conditions without experiencing motion blur. With this technology, you can see video more clearly during nighttime when sufficient lighting is lacking.

Built-in IR Illumination

The camera includes infrared (IR) LEDs for IR illumination to provide night vision up to 30 meters.

Video Security App

Available on Android and iOS – LILIN Pro app provides security alarm push notification, real-time live viewing, and remote video playback

Day and Night Operations via Removal of the IR-cut filter

LR302 is equipped with a mechanical IR cut filter to increase IR sensitivity and improve nighttime images. The adjustable filter allows day and night operations even in the low lux conditions, and can provide outstanding vision.

ONVIF-compliant

Open Network Video Interface Forum (ONVIF) is a standard for physical IP based security products. LILIN IP camera is ONVIF Profile S conformant

Motion Detection

If properly set up, any motion in front of the camera will be detected and saved as an event. Motion in the selected area will provoke an alert.

SD Cards in Sync with NAV Software

The camera is designed with Micro SD/SDHC/SDXC card slots to provide video playback and recording. You can even synchronize an SD card with LILIN VMS (Video Management Software) – Navigator (NAV).

Privacy Masking

Privacy Masking can protect personal privacy by concealing specific areas in the camera's field of view. Doorways and house windows for example are not subject to surveillance.
